

How to use FCT

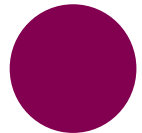

Knowledge Base and FAQ

Updated January 26

This guide covers general Power BI features available across Finance Control Tower reports. You will learn:

[Refresh Visuals](#)

[Filter Selection](#)

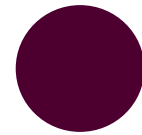

[Dynamic Report Layout](#)

[Personal Bookmarks](#)

[Subscription](#)

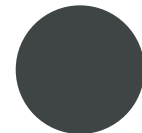

[Share Report](#)

[Export to PowerPoint / PDF](#)

[Export Data to Excel](#)

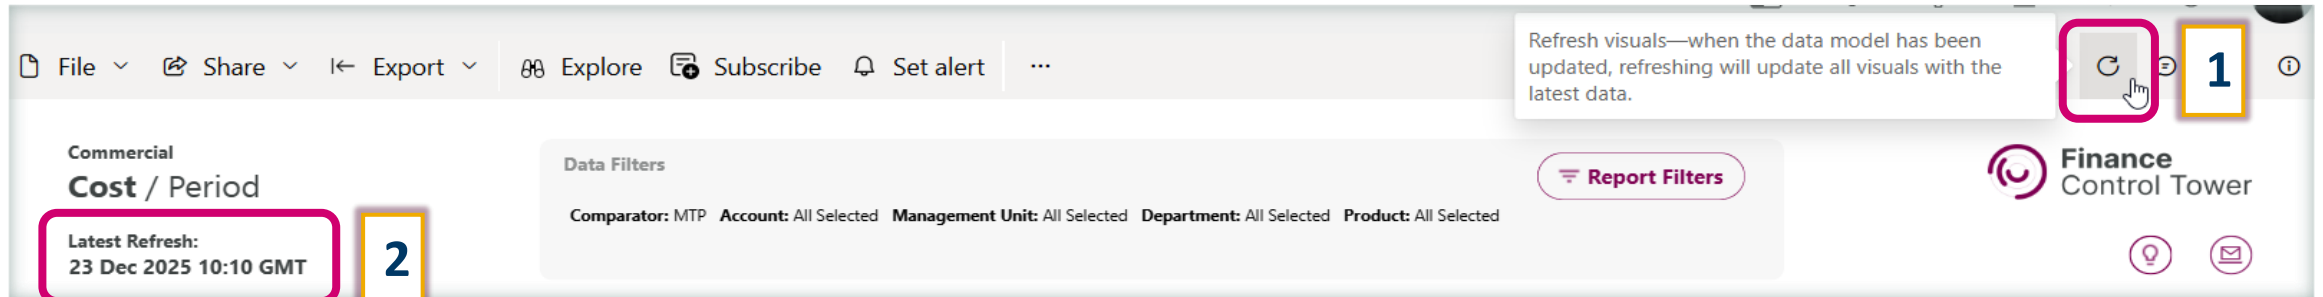

[Feedback and Information](#)

Actuals data are refreshed **up to 11 times per day**.

If the report has been open for a while and you need the newest data:

1. Click the “Refresh visuals” icon on the top right.
2. Check the Latest Refresh time.

The screenshot shows the Finance Control Tower interface. At the top, there is a navigation bar with options: File, Share, Export, Explore, Subscribe, Set alert, and a menu icon. Below this, the main content area displays a report titled 'Commercial Cost / Period'. On the left, a box shows the 'Latest Refresh: 23 Dec 2025 10:10 GMT'. In the center, there are 'Data Filters' for Comparator, Account, Management Unit, Department, and Product, all set to 'All Selected'. On the right, there is a 'Report Filters' button. In the top right corner, there is a 'Refresh visuals' icon (a circular arrow) and a notification icon (a bell). A tooltip explains that refreshing updates all visuals with the latest data. A red box highlights the 'Refresh visuals' icon, and a yellow box highlights the 'Latest Refresh' time.

How to create and use personal bookmarks:

- **Create:** apply your desired filters/report layout, click on the bookmark icon, and choose Add personal bookmark.
- **Rename:** give it a clear name (example: “Sales by brand”).
- **Use/Restore:** select the bookmark to restore the saved state.
- **Update:** adjust the report view, then choose Update on that personal bookmark.
- **Set as default:** you can save multiple personal bookmarks, choose “Set as default view” to make one as your startup view for the report.

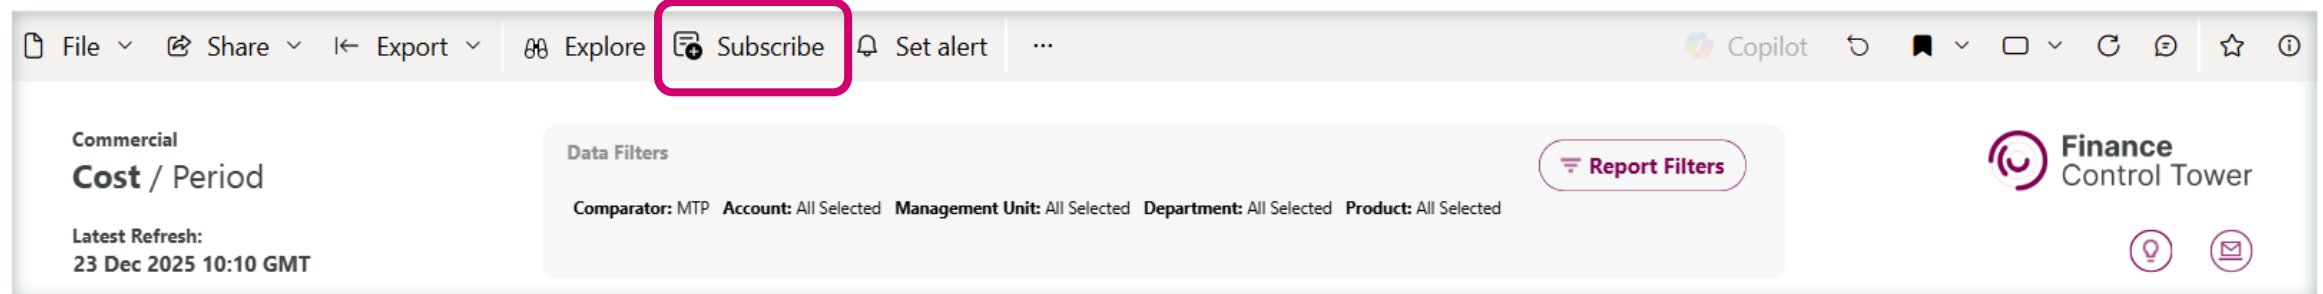

Purpose: Receive scheduled report snapshots via email.

Format: Subscriptions capture the report in its current state at run time and send it as **PowerPoint** or **PDF**, with an option to include a link back to the report in Power BI.

Manage: Create multiple subscriptions and update them via Manage.

Note:

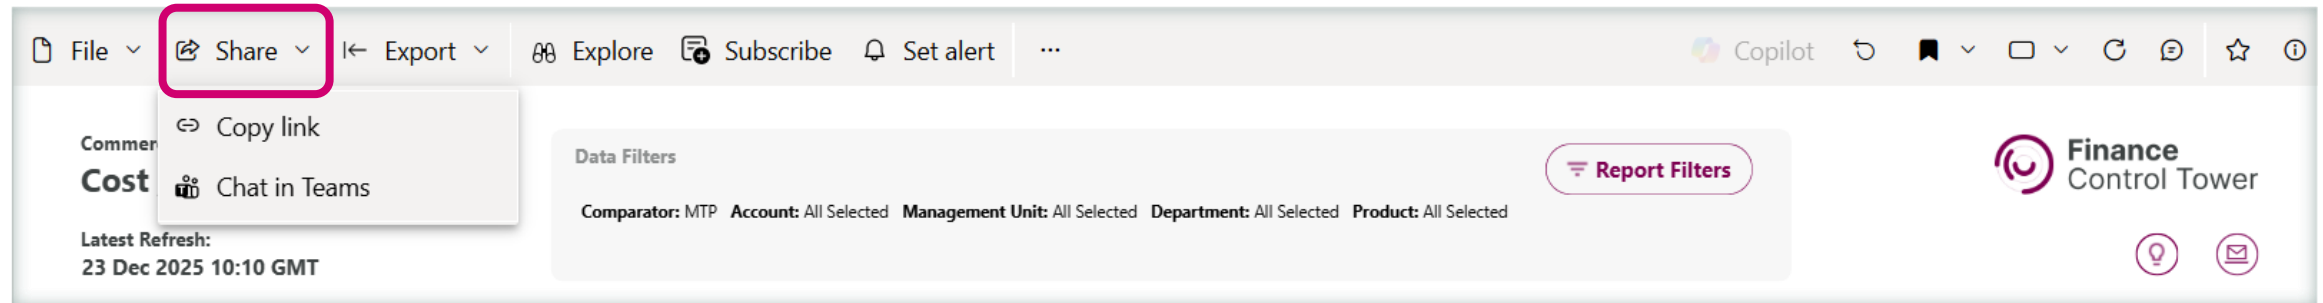

- You cannot subscribe on behalf of others due to Power BI limitation for viewer access.
- If needed, **share the report**; recipients can then save their own **personal bookmarks**.

Share options: Share the report (with your current filters / layout) via **Copy link** or **Microsoft Teams**.

Data security: Recipients only see data allowed by their Row-Level Security (RLS); sharing does not elevate access.

Example: If the sender has access to “1000INT International Region” and the recipient has access only to “44000MX Mexico,” the recipient will see only “44000MX Mexico” data.

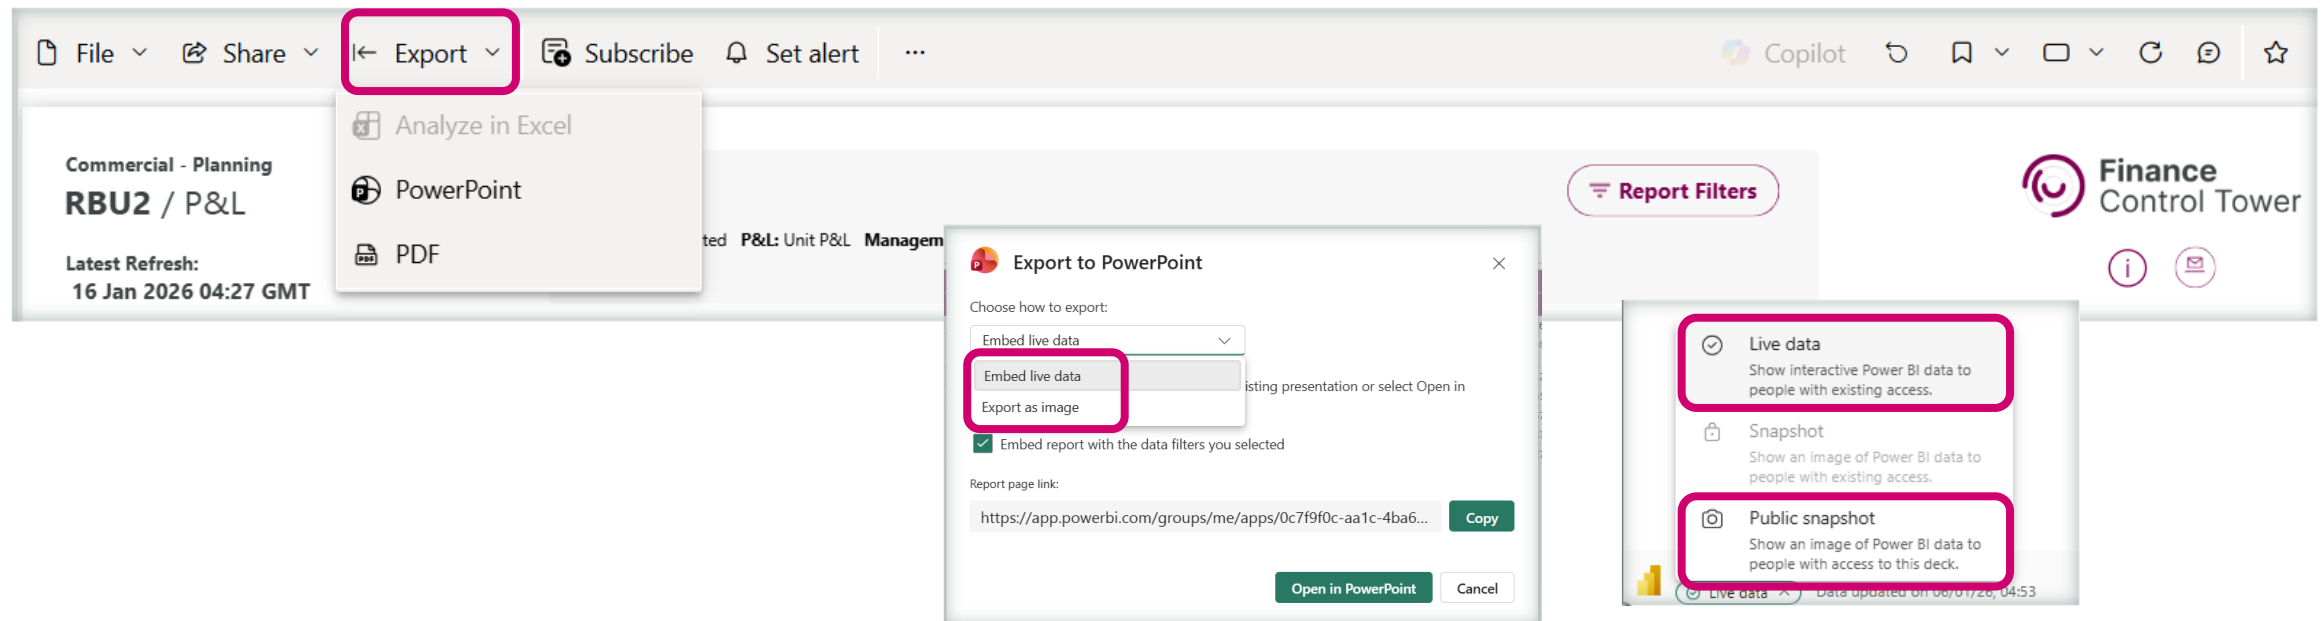

Static export: Export the current view (filters/layout applied) to **PowerPoint** or **PDF**.

PowerPoint — Embed live data: Insert a live report page into a slide so viewers can interact with filters/layout; data updates per the refresh schedule. Viewers can switch to Public snapshot if needed.

Data security: Recipients only see data allowed by their Row-Level Security (RLS); sharing does not elevate access.

Example: If the sender has access to “1000INT International Region” and the recipient has access only to “44000MX Mexico,” the recipient will see only “44000MX Mexico” data.

Performance note: Embed live data consumes capacity; opening multiple live-embedded slides at once can slow performance.

The screenshot displays the Finance Control Tower interface. At the top, a navigation bar includes 'File', 'Share', 'Export', 'Subscribe', 'Set alert', and 'Copilot'. The 'Export' menu is open, showing options: 'Analyze in Excel', 'PowerPoint', and 'PDF'. The 'PowerPoint' option is selected, opening a dialog box titled 'Export to PowerPoint'. This dialog has a dropdown menu set to 'Embed live data', with 'Embed live data' and 'Export as image' visible. A checkbox 'Embed report with the data filters you selected' is checked. Below, a 'Report page link' is shown with a 'Copy' button. At the bottom of the dialog are 'Open in PowerPoint' and 'Cancel' buttons. To the right, a 'Report Filters' panel is visible. In the bottom right corner, a panel shows three options: 'Live data' (checked), 'Snapshot', and 'Public snapshot', each with a brief description. The 'Live data' option is highlighted with a red box.

Export Data to Excel

- 1. Click the “...” icon on the table.
- 2. Then select “export data”.

Feedback and Information

Click the left icon to access the user information.

Click the right icon to send feedback to Finance Control Tower team.

The screenshot displays the top navigation bar of the Finance Control Tower application. The bar includes a menu with options: File, Share, Export, Explore, Subscribe, Set alert, and a more options icon. To the right of the menu is the Copilot icon and a set of standard browser navigation icons (back, forward, search, etc.). Below the navigation bar, the main content area is divided into sections. On the left, there is a 'Commercial' section with the title 'Cost / Period' and a 'Latest Refresh' timestamp of '23 Dec 2025 10:10 GMT'. In the center, there is a 'Data Filters' section with a list of filters: 'Comparator: MTP', 'Account: All Selected', 'Management Unit: All Selected', 'Department: All Selected', and 'Product: All Selected'. To the right of the filters is a 'Report Filters' button. On the far right, there is a 'Finance Control Tower' logo and a red-bordered box containing two icons: a lightbulb (representing feedback or information) and an envelope (representing contact or support).
